

SOUTH ON MAIN

WOODSTOCK'S NEW URBAN VILLAGE

FALL 2024

UPDATES FROM THE JW COLLECTION

2024 is winding down and, sadly for the JW Collection, so is our now 8-year experience of being the developer and builder of South on Main. As I think almost everyone will agree, South on Main is a truly exceptional neighborhood in virtually every respect. We are certainly proud of what has been accomplished. Our mission at the JW Collection is "To conceive and build homes and neighborhoods that will stand the test of time in value and beauty and enhance the lives of their owners." Certainly, this has happened at South on Main.

2025 will most certainly see the build out and sell out of all of the homes on the original South on Main land. We also hope to see the start of development on the Cain/Colbert properties between South on Main and Hwy 92. This will also bring two excellent enhancements to the overall South on Main amenities: four pickleball courts as well as a large club/meeting room over the garage of one of the condominium buildings.

This will conclude our bimonthly development updates. It has been a privilege to be your developer and builder. I feel confident that South on Main will prosper and enrich the lives of its owners, hopefully, forever.
